Winter Series

Well the wind did blow through on Friday and dropped in time for us all to get out on the water on Saturday.

Unfortunately it dropped a little bit too much and made getting racing away very difficult.

Those "charging" around the cans managed to get a start in following a long delay before their racing was abandoned on the first leg (but hey it was better than being at home doing chores)

The Cruising Division did manage to sneak over the finish line 8 minutes before the time limit expired and the results can be found on the [club website](#).

Alex Paterson also took some great photos which can be seen [here](#).
